How we assess funds

We assess our funds against each of the seven pillars that our regulator, the Financial Conduct Authority (FCA), have set out (listed below). Looking at one pillar on its own doesn't paint the full picture. To help the SAM UK Board determine whether a fund has delivered value, we consider all pillars equally. Our assessment and actions to improve value (where applicable) are set out in this report. More information on our approach can be found [here](#).

Seven pillars assessed

Quality of service

The range and quality of services provided to customers.

Performance

The performance of the fund after deduction of fees. Performance is considered based on the investment objective. This may be to deliver a target income, outperform a target benchmark, or stay within a risk band for example. We assess performance over the timescale set out in the fund objective taking into consideration the fund's investment strategy and policy.

Authorised Fund Manager (AFM) costs

We assess all costs paid by the fund, including costs for services provided by 3rd parties, and costs that we pay out of the AMC (the fee we charge for managing the fund).

Economies of scale

Whether we are able to achieve savings and benefits from economies of scale and whether these are passed back to customers.

Comparable market rates

How our pricing compares with the pricing offered by competitors.

Comparable services

In relation to each service that we offer, how our pricing compares with other similar products that we offer to other customers.

Classes of units

Whether it is appropriate for customers to be invested in share classes that are more expensive when compared to other classes of the same fund with similar rights.

Fund conclusions

The table below provides an overview of review outcomes across SAM UK domiciled funds for the year ending 31 December 2025.

- The fund has delivered value.*
- The fund has not delivered value. We have identified areas where we will work to improve value and actions to address this.
