Calculations as at 31 March 2026 in GBP. Source of performance data: Santander Asset Management & FE fundinfo. Fund figures are after fees with income reinvested (Total Return).

Past performance is not a reliable indicator of future results. The value of investments and revenue from them can fall as well as rise and investors may not get back the amount originally invested. Please note that the value of any foreign investments may be affected by changes in currency exchange rates.

Risk and reward profile

Risk and Reward Indicator: The Risk and Reward Indicator table shown above demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money, and the lowest risk and reward indicator does not mean risk free. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The value of your investment is not guaranteed and you may get back less than the original amount you invested. Investors should refer to the most up to date [Key Investor Information Document](#) available from our website.
