Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Santander Max 30% Shares Income Portfolio (the "Fund")

A sub-fund of Santander Managed Investments OEIC
R Income Share Class (ISIN: GB00BJL58D55). This Fund is managed by Santander Asset Management UK Limited.
This Fund is authorised in the UK and regulated by the Financial Conduct Authority.

Objectives and investment policy

The Fund's objective is to provide an income, with the potential for capital growth (to grow the value of your investment), over a 5+ year time horizon. The Fund has a target annual income of 2.5 - 3.5%, although this is not guaranteed.

The Fund is actively managed and invests globally: 60-90% in bonds; 10-30% in shares in listed (at purchase) companies, including Real Estate Investment Trusts (REITs) and other investment trusts; and up to 10% in cash, cash like and other money market instruments. Up to 15% can be invested in non-developed markets. Bonds may be issued by companies, governments, government bodies and supranationals. They may have a low or no credit rating (at purchase), and/or be "non-standard" (e.g. bonds that pay before maturity or (up to 6%) in asset/mortgage backed securities), but at least 80% must be investment grade. Typically at least 75% will be in bonds denominated in or hedged to GBP, and shares in companies listed (at purchase) in the UK which may also be domiciled, incorporated or conduct a significant part of their business in the UK. The Fund typically invests directly but can invest indirectly: up to 10% via other funds; and in property via REITs. Derivative strategies will be used to help deliver income. Typically they will be used regularly for Efficient Portfolio Management (to reduce risk, reduce cost, or generate additional capital or income without materially affecting risk profile), including hedging, and less frequently for investment purposes (to help achieve its investment objectives).

The Authorised Corporate Director (ACD) and appointed Sub-Investment Managers (Sub-IMs) each manage a portion of the Fund (Mandate). They will use their expertise and discretion to select assets (active management) according to their investment views as markets change. They may have different investment styles but will focus on income with the aim of meeting the Fund's investment objectives. Each Mandate is managed with reference to an Index in the Fund's Constraint Benchmark (50% Markit iBoxx GBP Non-Gilts Index TR, 25% ICE BofA UK Gilts All Stocks Index TR, 20% MSCI United Kingdom IMI Index TR and 5% Sterling Overnight Index Average (SONIA)).

Whilst the Fund does not aim to outperform its Constraint Benchmark, each Mandate, other than one (c.10% of the Fund), is subject to a performance/outperformance target relative to its index, and risk management measures (e.g. Tracking Error) which limit how far it can deviate from its index. The ACD/Sub-IMs do not have to invest in the same assets or amounts as its Index. As each Mandate may hold significantly fewer assets than its Index, the Fund may hold significantly fewer assets than, and diverge from, the Constraint Benchmark. The Constraint Benchmark has been selected as it is representative of the types of assets the Fund may invest in.

You can buy and sell shares in the Fund on any business day. Income arising from your investment will be paid to you shortly after the end of each month.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk — **Typically higher rewards, higher risk**

The lowest risk and reward indicator does not mean risk free. The Fund is rated 4 due to the nature of the assets it invests in. The material risks listed below are not adequately captured in the indicator above.

Bond Risk: Increases in inflation and interest rates, reduction in issuer creditworthiness and other risks related to bonds can reduce their value.

Capital Erosion Risk: Fees are taken from the Fund's capital. This helps the Fund generate income, but could result in capital erosion or reduce the potential for capital growth.

Counterparty Risk: A default by a counterparty (including derivative counterparties and any providing a service, e.g. safekeeping of assets) may result in a reduction in the value of the Fund.

Country Risk: Investing all or mostly in a single country or region (UK) can be riskier than a fund that invests more broadly.

Currency Risk: The value of investments that are not in pound sterling may be affected by changes in exchange rates.

Derivatives Risk: Derivatives are highly sensitive to price movements. Some derivatives may generate additional volatility in the value of the Fund and may result in the Fund being leveraged.

Income Risk: There is a risk that the income paid by the Fund is less than the level detailed in the Fund Objective.

Liquidity Risk: It may be difficult to sell some investments, or to sell them without making a loss which may reduce the value of your investment.

Non-Developed Market Risk: These markets are more volatile than developed markets. Dealing, settlement and custody issues could arise.

Stock Market Risk: The value and income of shares can go up or down. This can be due to changes in how the market views the company, industry, or economy.

The value of your investment and any income is not guaranteed and you may get back less than the original amount you invested. The Fund Prospectus section "Risk Factors" has more information.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year	
Ongoing charges	0.65%

Charges taken from the Fund under specific conditions	
Performance fee	NONE

The Ongoing Charges Figure (OCF) is based on expenses for the half-year ending 31 January 2026 and has been annualised. This figure may vary from year to year.

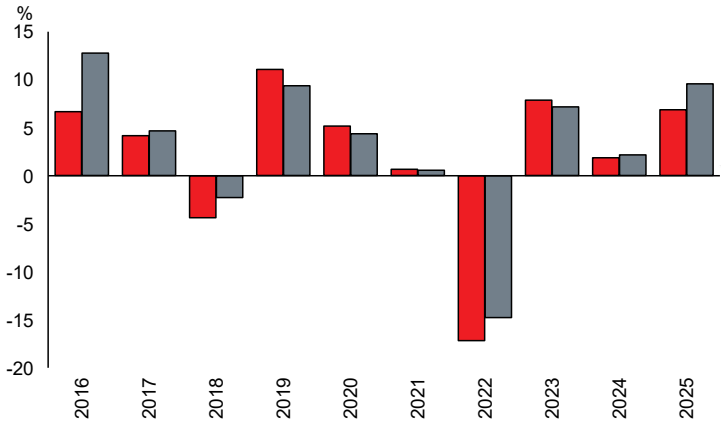

The Fund operates with an OCF cap, which means that the ACD will aim to keep the cost of investing in it, excluding transaction costs, below 0.69%.

Transaction costs, which are not included in the calculation of the OCF but are incurred by the Fund when buying or selling investments, may have an impact on performance and are paid from the assets of the Fund.

Our current policy is to charge all fees to the capital of the Fund, and not the income.

More information about charges can be found in the Fund Prospectus section "Fees and Expenses" and Appendix 1.

Past performance

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
Fund	6.7	4.2	-4.4	11.1	5.2	0.7	-17.2	7.9	1.9	6.9
Index*	12.8	4.7	-2.3	9.4	4.4	0.6	-14.8	7.2	2.2	9.6

Source: FE fundinfo 2026

You should be aware that past performance is not a guide to future performance.

Fund launch date: 03/11/2014.

Share/unit class launch date: 03/11/2014.

Performance is calculated in GBP.

The past performance calculation does not include any entry or exit charges if applicable, but does take into account the OCF and the costs of buying and selling securities.

Whilst the Fund is managed with reference to a Benchmark, it does not track an index.

The Benchmark was reclassified from Target to Constraint on 13 November 2020. From this date, the Fund is no longer aiming to outperform the Benchmark.

The FTSE components of the Benchmark were replaced by equivalent indices from MSCI or ICE from 02 November 2026.

Practical information

The Depositary is NatWest Trustee & Depositary Services Limited.
Further information about the Fund can be found in the Prospectus and latest Report and Accounts, which are available free of charge in English on www.santanderassetmanagement.co.uk/tools#/fund-centre
The Prospectus and the Reports and Accounts are prepared for all of the sub-funds of Santander Managed Investments OEIC.
Each sub-fund of an umbrella OEIC is responsible for meeting its own debts from the assets of that sub-fund. The assets of one sub-fund cannot be used to pay the debts of another sub-fund.
The latest share price of the Fund is published each business day on www.santanderassetmanagement.co.uk/tools#/fund-centre
The base currency of the Fund is UK Pound Sterling (GBP).
The Fund is subject to UK tax laws, which may have an impact on your personal tax position. UK tax laws may be subject to change in the future.
You can switch your investments from one fund to another (which involves a sale of the Shares held, and purchase of new Shares) within the range of funds offered by Santander Asset Management UK Limited (subject to meeting certain requirements as set out in the relevant prospectus). This may have tax consequences for you.
For information about the indices used in the Benchmark, please refer to the Fund Prospectus.
Details of Santander Asset Management UK Limited's remuneration policy, describing how remuneration and benefits are calculated and the identities of persons responsible for awarding remuneration and benefits, as well as other statements and policies are available on our website www.santanderassetmanagement.co.uk/modules/about-us/statements-and-policies. A paper copy of the website information is available free of charge upon request.
Santander Asset Management UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund Prospectus.
